Film Wins 'Chris' Statuette

The Federal Land Bank and Federal Intermediate Credit Bank of Baltimore announced that the new PCA film, "Credit, A Capital Idea," has received one of the nation's highest film awards.

The animated film on profitable use of farm credit was bestowed "The Chris" statuette at the 19th Annual Columbus International Film Festival on October 21st in Columbus, Ohio. Of 470 motion pictures entered in the festival in the areas of education and industry only 59 statuettes--the festival's highest award--were presented.

The statuette was received by F. Vernon Wright, President of the FICB of New Orleans and chairman of the PRAT Committee, and by George Zeis, FICB of St. Louis, chairman of the PCA Motion Picture Committee. Films receiving the statuette were described by festival officials as "films our judges have rated 'superior'".

The high award was the first ever received by a motion picture of the Farm Credit System.

More than 350 prints of the animated film have been distributed around the country. It currently is being shown nationwide on many stations, frequently in evening "prime" time. A number of the local associations within the Baltimore Farm Credit District have copies of the film and they can be obtained for a viewing through the association or through the Banks. The film would be of prime interest to vocational agricultural classes, local farm organizations, service organizations, and businessmen's groups.

The Land Bank and Intermediate Credit Bank, together with the Baltimore Bank for Cooperatives, comprise the Farm Credit Banks of Baltimore which are a prime source of funds for the agricultural industry in Maryland, Delaware, Pennsylvania, Virginia, West Virginia, and Puerto Rico. Thirty-one Production Credit Associations, thirth Federal Land Bank Associations, and the Bank for Cooperatives are currently serving over 31,000 farmers and their cooperatives with loans outstanding in excess of $660,000,000.
